## G100 Denim Club

G100 is also supported by The Denim Club : Group of 100 He-for-She Champions globally, comprising leaders and luminaries from the business, corporate and political domains, each leading a sector of influence and having their companies and institutions in support of gender parity and equality. They will advocate for gender equity and balance, mitigate barriers to women's leadership, commit to women's greater C-suite representation, and fuel funding for female founders.

Why 'Denim' ? Because it's symbolic of our common ground. While men may be from Mars and women from Venus; and while girls may grow with pink and boys with blue, denim belongs to all of us equally as a place of comfort for cool and candid conversations. The sturdy denim stands for the solid dialogue between genders and the strength of solidarity that we aspire for. Together we can co-create a better, balanced world for All.

# Distributed Leadership

## How we function with Free Membership

All Chapter Chair Roles are Honorary and Voluntary. They do not carry any compensation. Membership to ALL is Free.

Since we do not charge any membership fee, we don't have any corpus of funds.

For chapter functioning, we rely on the "picnic-model" - where each one pools in whatever they can. There's always something - a kind gesture, an insight, sharing of experiences, giving encouragement, providing a connection or a reference. Expenses of the Secretariat/Headquarters are funded by the Founder.

In our experience, chapters always find innovative formats to "make it happen" - going Dutch, finding sponsors/partners, using homes/offices of one's companies by turns, use of free social media platforms.

Importantly, when we ALL pool in our strengths, skills and resources, this innovative path helps build our resourcefulness and leadership capabilities. We realise that together We Can Do It ALL!

This is in line with its entire concept of distributed leadership.

# HOLISTIC VISION DOCUMENT

By the glorious global leadership of the G100 Global Chairs,  
along with their denim partners,  
and the inclusive insights fostered from the cross-continental and intersectional networks enabled by the  
country, state and city chairs sisters in the respective wings/sectors across the world,  
the G100 will gather a rich repository of expertise and experience with global and grassroots engagement -  
toward co-creating with the central Secretariat,  
a holistic Vision Document for presenting policy suggestions and recommendations to multilateral  
institutions  
like the UN, EU, and to governments globally, including global leadership groups as the G7, G20.

The thought leadership and empowered actions by the G100 is a historic opportunity to represent and  
manifest the dreams and aspirations of millions of women. We do not have to wait for a 100 years for  
gender parity. It can happen in this decade itself with our shared vision and collective action.
